

**Become A  
Veteran's Voice  
Mental Health  
Council  
Member**

**We Are The  
"Voice" For The  
Veteran**

*The Veteran's Voice Council is committed in assisting all Men and Women Veterans in Mental Health programs provided by Veterans Affairs at the Long Beach facility.*

*The Mental Health Veteran Consumer knows which program(s) have been effective in their recovery. The Men and Women participating in these programs are also aware of the type of care a doctor or intern has provided in their recovery process. We need to identify what works or does not work.*

*The council will endeavor to ensure that the VA hears the "Veteran's Voice" to fund those programs that a veteran knows helped or is helping in the road to his/her recovery.*

*As consumers of Mental Health, we need to support our Brother and Sister Veterans with their ongoing Mental Health recovery by providing guidance on what is available to them and what is highly recommended by other consumers.*

*Join Veteran's Voice - Stand Up to be Heard*

*Your Needs Are Our Needs*

*(Veteran's Voice Council meets every Thursday Bldg. 128, Rm. 126, 08:00-08:50)*
